

Spanish high-quality electrical distribution box manufacturer

AI Overview

IDE Electric and Ormazabal are among the top Spanish manufacturers of electrical distribution boxes, known for high-quality materials, certifications, and customizable solutions. IDE Electric specializes in high-quality enclosures for electrical and electronic switchgear, control gear, and industrial automation systems. Their products are made from cold-rolled steel and halogen-free plastics, offering protection ratings from IP44 to IP67 and current capacities from 10 to 125 Amperes at voltages from 24 to 500 Volts. IDE Electric provides customized solutions, rapid production, and integration with EPLAN projects, making them highly versatile for industrial and commercial applications. They also offer a wide range of accessories, including busbar supports and distribution blocks, ensuring complete installation solutions (Web result). Ormazabal focuses on high-tech electrical solutions for public distribution networks and renewable energy integration. Their product range includes medium-voltage transformer substations and fully insulated switchgears, which are essential for modernizing electrical distribution systems. Ormazabal is recognized for innovation, reliability, and support for sustainable energy projects, making it a strong choice for large-scale infrastructure and utility projects (Web result). Other Notable Manufacturers and Distributors Grupo Electro Stocks and Grudilec are prominent distributors in Spain, offering a wide range of electrical distribution products with strong logistics and customer service. While they primarily distribute, they provide access to multiple manufacturers and can be a reliable source for procurement (Web result). UniElectrica specializes in renewable energy solutions and energy efficiency, which may be relevant if the project involves clean energy integration (Web result). Recommendation For industrial-grade, certified, an...
