

What are some manufacturers of temperature-measuring optical cable connectors in New Zealand

AI Overview

Key manufacturers of fiber optic temperature-measuring cables include Luna Innovations, AP Sensing, MKS Instruments, COMEM Group, and Hellma, with local distribution options available in New Zealand.

Global Manufacturers

- Luna Innovations:** Offers high-definition distributed temperature sensing (DTS) and fiber Bragg grating (FBG) sensors for precise temperature monitoring in industrial, energy, and infrastructure applications.
- AP Sensing:** Provides fiber optic sensor cables for real-time monitoring of temperature, strain, and acoustic signals, including metal-free, armored, and tube-in-tube configurations suitable for harsh environments.
- MKS Instruments:** Supplies fiber optic temperature sensors and process control solutions for advanced manufacturing and industrial monitoring.
- COMEM Group:** Specializes in GaAs-based fiber optic sensors for high-accuracy temperature measurement in environments with electromagnetic interference, high voltage, or microwave exposure.
- Hellma:** Produces fiber optic temperature sensors and accessories for laboratory and industrial applications.

Applications

These optical cables are used in:

- Power grids and transformer monitoring
- Oil, gas, and water pipeline temperature monitoring
- Industrial facilities, tunnels, and high-risk zones
- Research and laboratory environments requiring precise temperature mapping

Sourcing in New Zealand

While New Zealand may not have large-scale manufacturers of fiber optic temperature cables, local distributors and integrators often supply these global brands. Companies such as RS Components, Techtronics, or specialized industrial instrumentation suppliers may provide access to Luna Innovations, AP Sensing, and COMEM product...
